DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5,229,110
Claims 1 to 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Edgar et al, Wachter et al, Benet et al (AE and AF). Each of the cited references discloses the instant compounds to be known in the art. The instant claims are considered to be prima facie obvious over the cited references absent evidence of unexpected properties for the claimed compounds. The claims have been examined to the extent that they read on the compounds alone since the preamble to the claims does not impart any patentability to the claims.

Election/Restrictions

Claims 16 to 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 5.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references are cited to show the state of the art.
